

# Clinton Memorial Hospital/ University of Cincinnati Family Medicine Residency Program

## Small Town Hospitality, Personalized Training, World-Class Education

**Big city medicine in a small town setting** — The CMH Residency offers you the best of both. With our program, you will find the personal relationships and the breadth of experience that drew you to medicine practiced in a state-of-the-art hospital. We even offer a Sports Medicine rotation at Wilmington College, an outstanding Quaker college. As an added bonus, nearby Cincinnati, Columbus, and Dayton provide additional cultural, recreational and professional sports activities.

**Clinton Memorial Hospital.** The hospital's recent \$50 million expansion and our focus on staying abreast of technologically-advanced treatment has brought CMH Regional System to the forefront of regional healthcare. We have the latest equipment and much needed space to treat the full range of medical challenges that come with serving a diverse and supportive community – 100 medical beds including rehabilitation and obstetrical floors; a low-risk cardiac catheterization laboratory; a regional cancer treatment center; a state-of-the-art electronic health records project; plus outpatient services that include physical, occupational and speech therapy. Our spacious call rooms are equipped with computers and Internet access. CMH – newly renovated, state-of-the-art technology.

**The Benefits.** The CMH Residency offers a competitive benefits package enhanced by a community that is high in quality-of-life, low in cost-of-living.

- Competitive Salary
- Relocation assistance is available upon request – up to \$1,000 provided to reimburse for documented expenses
- Handheld PC for use in the program
- Outstanding Insurance Plans
- Educational Allowance
- Vacation Time

**The Program.** The CMH Residency views residents as important members of our medical team.

- Unopposed program with no competition for patients.
- Small community hospital with friendly staff.
- Manageably-sized program with personal feel.
- More office experience than other programs.
- Close, one-on-one contact with attending physicians.
- 57 scholarly publications, (nine in the 2006 academic year)
- Four residents accepted per year.
- Progressive call schedule:
  - first year – 8 months in-house call, 2 months home call
  - second year – 7 months in-house call, 1 month home call
  - third year – 3 months home call.
- Moonlighting encouraged.

The 2006 graduating class: from left, Dr. Daniel Zoeteman, Dr. Shawn Swick, Dr. Allen Liu, and Dr. Deanna Allgeyer

## Resident Testimonials

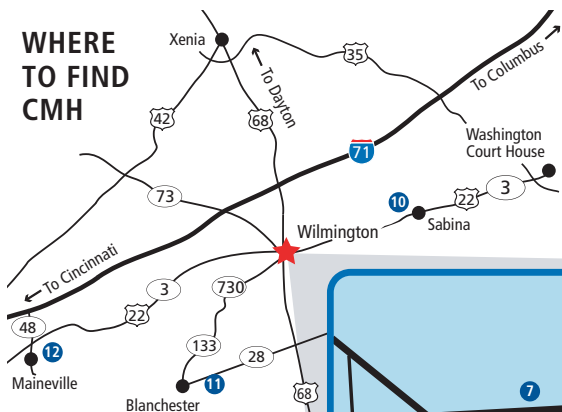

“The openness of the attending physicians, as well as the support we received from hospital staff and patients, was outstanding.”  
*— Dr. Deanna Allgeyer, class of 2006*

“The program is excellent preparation for the varied medical challenges of a small town medical practice.”  
*— Dr. Shawn Swick, class of 2006*

“I can honestly say, that the training I received prepared me to compete with my internal medicine peers while in a fellowship in geriatric medicine at the University of Cincinnati. The attendings are knowledgeable and good teachers.”  
*— Dr. Imran Minhas, class of 2005*

“It is truly the people that make this program great. From the nurses in the health center and the hospital to the attendings and community doctors, everyone is trying to make you a better doctor.”  
*— Dr. Kendall Erdahl, class of 2007*
