

PMAP – Patient Medication Assistance Program

Helping The Uninsured
Complete Applications
For Medical Assistance

- Designed to help patients obtain their prescription drugs at a reduced rate, or free, through programs run by pharmaceutical companies
- Assists patients in acquiring necessary medications that they may not be able to afford otherwise
- Supported by a computer program designed to help complete the various applications required
- Volunteers coordinate the process by ensuring that proper documentation has been filed to the pharmaceutical companies
- Tracks the status of applications and medications that are dispensed
- To date, CMH PMAP has assisted 106 patients with more than 500 medications
